Employment History

Jul, 2023 – Present

UI Designer and Angular Developer at Orchasp Limited.

Project: Freight Operations Information System

Description:

Freight Operations Information System (FOIS) is a system developed by CRIS to track and optimize freight train operations. It helps manage wagons, locomotives, crew, and network paths efficiently.

FOIS has two key modules: Rake Management System (RMS) for train operations and Terminal Management System (TMS) for freight transactions.

Technologies Used: HTML 5, Bootstrap 5 , Angular 15, TypeScript

Roles & Responsibilities:

- Played a key role in Ui Designing.
- Worked with HTML, CSS, Bootstrap to display the data.
- Reviewed, edited and applied style rules to design, complying with guidelines.
- Developed and maintained multiple Angular applications with Type Script, HTML, CSS and Bootstrap 5.
- Integrated UI elements forms and other interactive features into the application using Angular.
- Participated in meetings to discuss upcoming tasks and deadlines.
- Provided technical support for users experiencing problems with the application.
- Implemented authentication and authorization using JSON.
